

BF10

Bulk Feeder for solder spheres 16mil to 30mil diameter

Feeds 10 heads simultaneously from bulk supply

Feed in excess of 16000 balls per hour single beam (29000 balls per hour dual beam 2 feeders)

Compatible with all YSM10/20 series mounters (adaptable to all multi spindle mounters)

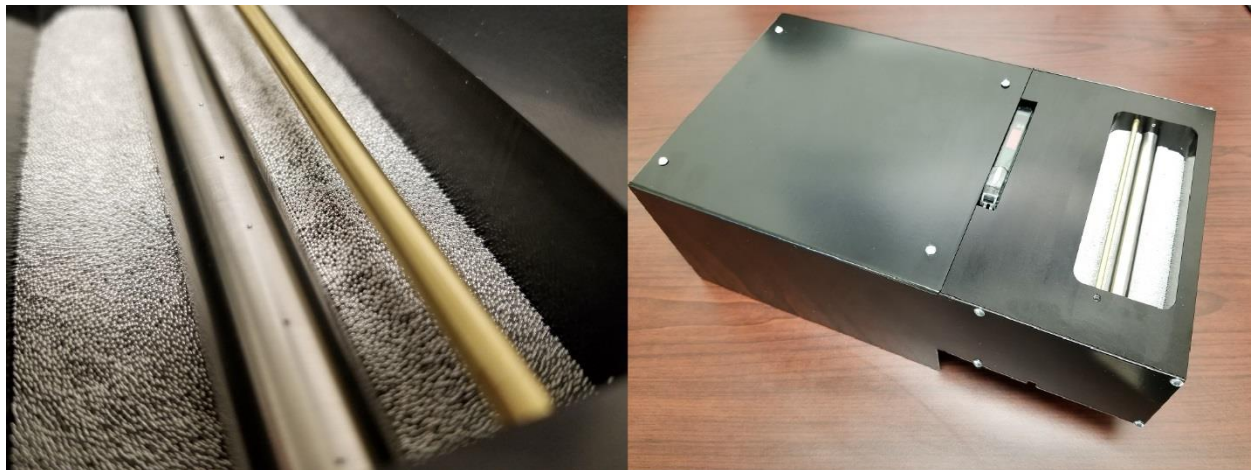

168mm wide (14 feeder slots) Works with standard Yamaha feeder bar and FES cart

Power requirement 120VAC 7amps, 24VDC 500Ma (supplied by host machine)

Can be used with a vacuum source or compressed air only

Pneumatic requirements dry compressed air 60Psi min 5CFM (25 CFM if not using separate vacuum source)

N2 (optional) 60Psi min 5CFM

Made in USA

U.S. Provisional Patent Application No. 62/702,757

USPTO Publication No. 2020/0030903 A1
